Bes-Tech, Inc., a building technologies company, has recently joined as a sponsor of the Atlanta Better Buildings Challenge (ABBC). As a Bronze Sponsor, Bes-Tech, Inc. will support the organizations initiatives and likely participate in related networking events.

About the Atlanta Better Buildings Challenge

The Atlanta Better Buildings Challenge (ABBC) is a nation-leading public-private initiative led by the City of Atlanta Mayor's Office of Sustainability. By 2020, the ABBC hopes to reduce energy and water consumption by at least 20% in participating Atlanta area buildings. The ABBC will utilize substantive energy and water efficiency (collectively "EE") upgrades of municipal, university, hospital, and commercial buildings as a means of freeing up business capital for more productive uses, stimulating growth for communities, fostering new business opportunities, and creating a more sustainable footprint. Buildings participating in EE upgrades currently exceed 28 million square feet, with broader participation expected over the next few years.

About Bes-Tech

Bes-Tech has been a leader in energy efficient building systems technologies for the past ten years. The company was founded on proven scientific engineering processes and technologies that reduce peak energy demand, minimize energy usage, and maximize energy efficiency. Bes-Tech actively works to lower the carbon footprint of the built environment.
